**Us Airways Mechanic and Related Negotiations Update**

Dear Brothers and Sisters,

Your Negotiating Committee met, as scheduled, with the Company in Tempe, Arizona on Thursday, January 20, 2011 for Section 6 openers as provided for under the Railway Labor Act. The Company used this time to give an overview of the Company, express their views of future goals with the Mechanic and Related group, and provided brief remarks that they believe would position US Airways to attain their expectations for the future.

Your Negotiating Committee answered with information relayed to the Committee from the membership through proposals and our survey. We presented the Company a broad overview of our intentions to make changes in the current Collective Bargaining Agreement to bring this workgroup to a point that rewards us for the hard work and dedication we have collectively shown. Without the hard work and sacrifices of the membership, the Company would not be in the stable position it currently finds itself.

Schedules for future meetings were discussed. Dates and locations for future negotiations were set for the week of February 21, 2011 and the week of March 21, 2011 both in Tempe, Arizona.

Your support and solidarity through out this process is crucial to achieving an agreement for the membership.

Fraternally and Sincerely,  
Your Negotiating Committee
